

SMART Comments

MONTHLY NEWSLETTER: MAY 2018 EDITION

SMART Physician Recruiting was created in 2010 by Patrick Moore. Patrick Moore founded SMART on three core philosophies: Transparency, Accountability and Experience. We are transparent by sharing with our partners (clients) the physician fee rate, SMART's fee and medical malpractice insurance costs for each assignment. We are held accountable to our objective of matching the Right candidate to the Right opportunity. With over 30 years of physician recruitment experience, SMART continues to be a physician recruitment leader.

SMART Physician Story Dr. Okinedo

Dr. Okinedo started moonlighting with SMART in October of 2017. Our client and Dr. Okinedo agreed to sign a full time contract and will join our client in July 2018 after 7 months of providing great locum clinical service. Congratulations to Dr. Okinedo and our client. Another Right candidate in the Right situation.

Megan's Promotion Megan Lynch

Congrats to Megan of SMART Physician Recruiting for her recent promotion. Megan is now the Account Manager of our Advance Practice Providers (APP). Megan is helping dozens of our clients to provide the best Nurse Practitioners and Physician Assistants. Megan also has been promoted to EM Recruiter and is teamed with Beau Kairis, EM Account Manager.

SMART Influence Graham's Heart Journey

SMART donated money to the campaign to support a local Milwaukee child and his family. We have a relationship with his grandmother who works for a client of ours that has allowed us to have a more intimate knowledge of Graham's story. We encourage you to make a difference and support this child by donating today.

SMART IN THE COMMUNITY

The SMART team went on a team building adventure to the Escape rooms in Waukesha, WI. We split up into two teams and worked against the clock to earn our freedom from Pharaoh's Revenge and Cromwell Manor. Both teams solved the puzzle under 60 minutes. Thanks to everyone's participation, communication and time management skills.
